

MULTI-NATIONAL COMPANIES SUCH AS AGCO, RANDON CORP, AND QUINELATO TRUST US FOR ENGINEERING SOLUTIONS THAT INTRICATELY FUSE DESIGN AND ENGINEERING, ERADICATING CONFLICTS BETWEEN ELEGANCE AND FUNCTIONALITY. WE OPTIMIZE PROJECTS THROUGH COLLABORATIVE INTERDISCIPLINARY ENGINEERING AND THE APPLICATION OF CUTTING-EDGE TECHNOLOGIES TO ADDRESS OUR CLIENTS' EVER-CHANGING ENGINEERING NEEDS.

WHO WE ARE

- Duo Technology LLC is a full-service engineering firm with a legacy of hundreds of satisfied clients and 100+ years of experience among its highly-skilled professionals. Our robust mechanical, electronic, and software engineering proficiencies are grounded on the solid foundation of exceptional employees, enabling us to provide optimal solutions that effortlessly integrate these three realms.
- We thrive by employing exact design and analysis methodologies, leveraging them for streamlined development of electronic systems. We implement advanced techniques to produce scalable software solutions, delivering innovative and dependable technological outcomes for our clients.
- Our global cadre of experienced engineering professionals convert raw data into actionable decisions. We engineer solutions that adapt seamlessly to evolving customer needs. We are committed to crafting a future where technology aligns with dynamic workflows.
- We harness the power of our real-time management system to drive meticulous and efficient project planning. We are consistently engaged with, and provide punctual updates to, our clients. We are committed to strict adherence to high-quality standards and to collaborative engagement with clients at every phase of a contract. This facilitates the integration of valuable feedback and guarantees seamless adjustments throughout the project lifecycle.
- We prioritize cost-effective engineering solutions. Our unwavering emphasis on the efficient use of resources and on strategic procurement guarantees timely and budget-compliant project delivery, maximizing cost savings for our clients.
- We pride ourselves on round-the-clock service, providing responses to queries within 18 hours, which enables our clients to manage questions or issues promptly and timely. This ensures efficient problem-solving for a myriad of engineering challenges. Join us for continuous support tailored to your engineering needs. We propel innovation forward through swift prototyping, translating ideas into tangible realities at the pace of imagination.

WHAT WE DO

- **MECHANICAL ENGINEERING:**
 - ✓ Mechanical Design and Development
 - ✓ Machine Components Design and Manufacturing
 - ✓ Design Optimization
 - ✓ Structural and Thermodynamic Analysis
 - ✓ Technical Drawings
- **SOFTWARE ENGINEERING:**
 - ✓ CAD (Computer-Aided Design)
 - ✓ CAE (Computer-Aided Engineering)
 - ✓ CAM (Computer-Aided Manufacturing)
 - ✓ Artificial Intelligence in Engineering
- **ELECTRONIC ENGINEERING:**
 - ✓ Electronic Testing and Troubleshooting
 - ✓ Electronic System Integration
 - ✓ Hardware Debugging
 - ✓ Power Systems Design
 - ✓ Embedded Systems Design
 - ✓ Analog and Digital Circuit Design
- **INDUSTRIAL DESIGN:**
 - ✓ Feasibility Studies
 - ✓ Concept Design
 - ✓ Modeling and Ergonomic Design
 - ✓ Rendering
 - ✓ Design Manufacturing Specifications
- **CONTRACT MANUFACTURING:**
 - ✓ Rapid Prototyping
 - ✓ DFM (Design for Manufacturing)
 - ✓ Large Scale Source and Production
